

20 February 2023

To whom it may concern:

**LETTER OF RECOMMENDATION: MARLON BERNARDES**

Marlon Vernon Bernardes worked at Zevoli Growth Partners as our Graphic Designer from 1 July 2022 until 28 February 2023. Unfortunately, due to restructuring of the business and operational requirements, his position was retrenched.

We can recommend Marlon as an innovative Graphic Designer with e-Commerce Website Design skills. He solely designed our SharedImpact platformed, which we initially wanted to outsource, resulting in a saving of R100 000 for us. Marlon demonstrated the ability to be creative and worked well within our team. He also showed himself to be a fast learner, which meant he could adapt to changes quickly without compromising quality standards.

Marlon was always willing to offer his assistance and have an excellent rapport with our clients, employees and service providers. He would add value to any company, and I recommend him for any endeavour he chooses to pursue.

Please do not hesitate to contact me if you have any questions or need any additional information.

Kind Regards,

Helène du Toit
